Please! Do Not Lend Your CITY DIRECTORY

•

IT COSTS YOU MONEY
Every Time It is Loaned

•

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the **Directory** of Your City.

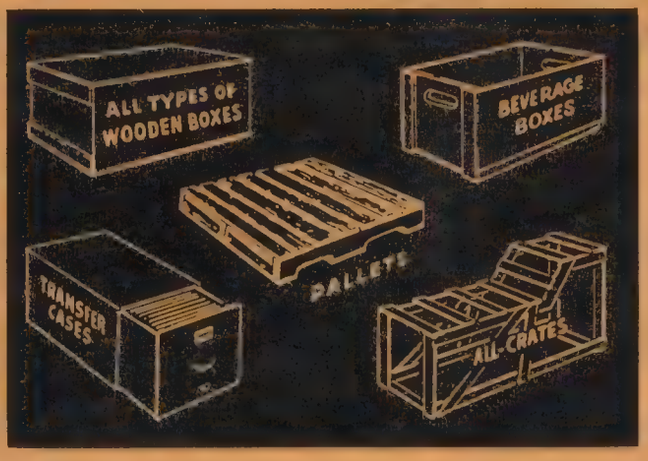
This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but **One Subscriber** to the **City Directory — the One Subscriber** would of necessity have to absorbe **The Whole Cost.**

If there were **1000 Subscribers**—each one would **have to absorb 1/1000 Part of the Whole Cost.**

From which it is obvious that the **Greater** the number of subscribers —the **Lesser** the cost to each.

Every time you loan your City Directory the **Less Necessity there is for the Borrower to subscribe for the Service.**



More Borrowers result in **Fewer Subscribers,** which means **Increased Cost.**

Addresses shown in the City Directory of persons or firms listed according to the name of the Building are not acceptable to the Post Office, always use the street and number. Street addresses of Buildings are listed in the introductory pages of this Directory.

Introductory

The present volume for the year 1959 is the eighty-first edition of Henderson's Directory of Winnipeg, the first being in 1878.

THE STREET AND AVENUE GUIDE gives the names of all streets and avenues arranged alphabetically, showing the location. number on the street and name of the occupant. The intersecting streets are shown in the order that they come.

* Denotes that someone living in the house is the owner.
🕭 Indicates there is a telephone at that address.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations commences on page 345.

THE CLASSIFIED BUSINESS DIRECTORY at the back of the Book exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed and are inserted under special contract.

ADVERTISING WINNIPEG

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city, the publishers have placed copies of this issue of the directory in libraries across the country where they are readily available for reference use by the public. There they serve as perpetual advertisements of Winnipeg, for business men the country over realize that the City Directory represents the community as it really is.

ESTIMATED POPULATION OF GREATER WINNIPEG, 440,000

This Directory estimate of population is based on the 1956 Dominion Census of 409,687. The Winnipeg Directory covers considerable territory beyond, but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Winnipeg may be obtained.

Respectfully, The Publishers,

March, 1959.

HENDERSON DIRECTORIES LIMITED.

PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

136 Officers with 399 firefighters and service staff.
14 stations. 48 pieces of equipment.
569 Public Fire Alarm Boxes.

FORM OF GOVERNMENT—Mayor and Council
The Council is composed of a Mayor and eighteen Aldermen.

GAS SERVICES—
Domestic—13,715
Commercial—1,058
Industrial—377

GOLF COURSES— 16

HOSPITALS—
17 hospitals with over 2300 beds.

HOTELS—
76—of all classes.

LIBRARIES (City)—
1 Public Library with 3 branches;
4 School Libraries and 2 Bookmobile (Travelling Library).

LIGHT AND POWER COMPANIES—
City of Winnipeg Hydro-Electric System.
Manitoba Power Commission.

METROPOLITAN PLAN—GREATER WINNIPEG—
The Metropolitan Planning Committee was established in 1944 for the purpose of preparing a comprehensive plan for the metropolitan area, including twelve cities, towns, and municipalities in Greater Winnipeg. Cities and municipalities which contributed to production of the comprehensive plan include; Assiniboia, Brooklands, Charleswood, East Kildonan, Fort Garry, St. Boniface, St. James, St. Vital, Transcona, Tuxedo, West Kildonan, Winnipeg.

NEWSPAPERS— 2 daily and 12 weekly.

PARKING METERS (Winnipeg City)—2064

PARKS (Winnipeg City)—
Administered by Parks Board—116 parks with total acreage of 1,385 Assiniboine Park the largest, has the only Conservatory and Palm House in the west. Consists of 362 acres.

POLICE DEPARTMENT (Winnipeg City)—
3 stations manned by 430 officers and men, and a staff of 80.
18 cruiser cars and 19 motorcycles.

POPULATION BY DECADES (Metropolitan)—

1873	1,869	1946 (Census)	296,997
1880	6,468	1951 (Census)	354,069
1890	25,002	1954	388,510
1900	50,503	1955	397,650
1910	172,865	1956 (Census)	409,687
1920	271,958	1957 (est.)	425,000
1930 (est.)	285,000	1958	440,000
1941 (Census)	285,356		

POSTAL RECEIPTS—
1956—$7,800,486.07 1958—$8,283,503.12
1957—$8,012,030.53

RAILROADS—
Winnipeg is served by two transcontinental railroads, the Canadian Pacific Railway and the Canadian National Railways, also the Greater Winnipeg Water District Railway, the Midland Railway and the Hudson Bay Railway. Three railroads supply direct service to the United States, the Soo Line—Northern Pacific and Great Northern. The two transcontinental railways have their Western Divisional Headquarters and maintain engineering works in Greater Winnipeg.

SEWAGE DISPOSAL—
Greater Winnipeg Sanitary District. Plant Capacity—25,000,000 gallons per day, sufficient for population of 278,000.

TAX RATE (Winnipeg City)—
1958—46.4 mills to yield $19,000,000.00 on realty alone

TELEPHONES—
Res. 123,660
Bus. 47,730
Total 171,390 (as at Dec. 31, 1958)

THEATRES—
40 (including 5 Automobile "Drive-Ins")

WATER SUPPLY—
Greater Winnipeg Water District.
Capacity—85,000,000 gallons per day, sufficient for a population of 850,000.
Source—Shoal Lake on the Lake of the Woods.

WATER METERS (Winnipeg City)—56,606

City of Winnipeg

HISTORY

The above is a facsimile of the City Seal, adopted by Council, June 1st, 1874, the motto of which is, "Commerce, Prudence, Industry." The significance of the emblazonry thereon may be described as follows:—

The Buffalo, the hardy, fearless, nomadic monarch of the plains, who had original possession and held sway where the City of Winnipeg now stands.

The Engine, the civilizing mechanism of man's ingenuity, displaced the buffalo, was the forerunner of prosperity, and is the means of social and commercial communication which the City enjoys with the world.

The Sheaves of Grain represent the source from which the prosperity of this City emanated and are emblematic of our City as the Gateway of the Golden West and as the greatest grain centre in the world.

The City of Winnipeg is the capital of the Province of Manitoba, and the Provincial Legislative Building and Grounds among the most beautiful on the continent.

The name WINNIPEG has the origin in the Indian Cree name given to the lake 40 miles north, meaning "Win," muddy; "nipee," water.

Winnipeg is situated in Latitude 49° 54' N., Longitude 97° 08' W., at the confluence of the Red and Assiniboine Rivers; 40 miles south of Lake Winnipeg and 60 miles north of the boundary line between Canada and the United States of America; almost midway between the Atlantic and Pacific Oceans and at an altitude of 760 feet above the seaboard level of New York.

The composition of the Metropolitan Area is as defined in the Dominion Bureau of Statistics Census for 1951, viz: City of Winnipeg, City of St. Boniface, City of St. James, City of East Kildonan, Town of Tuxedo, Village of Brooklands; municipalities of Fort Garry, St. Vital, Old Kildonan, North Kildonan, West Kildonan, Assiniboia, Charleswood, and the Town of Transcona.

It is the railway centre of Western Canada with all lines passing through it having workshops capable of manufacturing or maintaining all types of equipment.

Winnipeg International Airport located in the adjacent city of St. James and only fifteen minutes from down-town Winnipeg has been called the "Air Crossroads of the Continent." Developed to handle the largest and heaviest types of transports it takes its place among leading airports.

From a Hudson's Bay trading post (Fort Garry) in 1870, with a population of 215, Greater Winnipeg has grown to the size and finish of a first class metropolitan area of an estimated 440,000 people. When the City was incorporated in 1873 there were, 1,869 inhabitants. In 1878, steam railway connection from St. Paul, Minn., had reached a point just across the river from Winnipeg, and in 1881 railway communication from the east was established by the Canadian Pacific Railway. With the advent of railway connections a steady stream of travel and trade, with influx of population, was started and has resulted in the building up of a city of a size and importance that is exceeded by only three cities in the Dominion of Canada.

ORIGIN AND BACKGROUND

The history of Winnipeg is, in effect, the story of transportation and trade in Western Canada for the beginnings of the City and its environs lie back in the lusty days of the fur trade and the hardy voyageur. The eighteenth century French explorer, Sieur de la Verendrye, was probably the first white man to set foot in this region. Here, he established Fort Rouge about the year 1737.

This location became of strategic importance in the fur trade, as the easiest method of supply and communications south from the Hudson Bay and west from Montreal was by water route. In 1812, Lord Selkirk, a Scottish nobleman, obtained a vast land grant on the Red and Assiniboine rivers for the purpose of settlement.

Fort Garry, built in 1835, was the jumping off spot for the fur trader pushing west and north. Later, it was the base for the settler migrating into the vast plains and rolling parklands.

The colony developed and the line of communications gradually changed from the Hudson Bay route to follow the Red River south to the United States. By 1859 the Hudson's Bay Company was freighting in goods from the city of St. Paul in the State of Minnesota. In that same year the first steam boat service commenced on the Red River from Fort Garry to Georgetown, Minnesota, at the head of navigation on the river. The first railway engine in the west came by barge over this route in 1877.

The Province of Manitoba was formed in 1870 with its capital at Fort Garry. The district around Fort Garry came to be known as Winnipeg, and under this name it was incorporated as a city on November 8th, 1873, with a population of 1,869. Development of the new city was rapid.

The first shipment of wheat took place by river boat in 1878. In the fall of that year the first train ran between St. Boniface, across the river from Winnipeg and St Paul, Minnesota, providing rail transportation with eastern Canada, via the United States. By 1885 the first through train on the new transcontinental Canadian Pacific Railway line from Montreal arrived in Winnipeg.

There was a gradual flow of settlers into the west, but the flood tide came between the years 1900 and 1913, with a great influx of European and American immigrants. In the period of ten years from 1901 to 1911 the population of the metropolitan area increased by more than a hundred thousand. The requirements and demands of the increasing western population necessitated increased facilities for trade and commerce and for the gathering and distribution of capital. As early as 1884 there were 75 wholesale and jobbing houses in Winnipeg

The area had become the distributing and commercial centre of the west and then, to meet the needs of commerce and the grain trade, it became the financial centre.

The growth of manufacturing and processing industries commenced as early as 1825, with the erection of a windmill to grind flour. By 1831 the colony was self-supporting in this commodity, and ten years later there were 18 windmills and two water-driven mills in the district.

The present flourishing needle trades industry commenced about 1895. Between 1900 and 1906 several small factories were in operation fabricating overalls, workshirts and heavy knitted goods, in order to satisfy the demand for sturdy, warm work clothing. This industry has expanded to the point where its products, such as ladies suits and sportswear compete with the best products of other North American garment centres, both in style and quality of Workmanship.

The extensive meat packing industry grew from small meat processing plants set up in the 1890's. The opening of the St. Boniface stockyards, largest in the British Empire, in 1913, gave impetus to the industry, and by 1925 slaughtering and meat packing was the leading industry.

TRANSPORTATION

From a small beginning some 50 or 60 years ago, industry in the metropolitan area has flourished and developed until today there are approximately 1100 manufacturing and processing establishments producing a large variety of commodities.

The position of the Metropolitan Area of Winnipeg in the geographical centre of Canada is such that it is the focal point for all roads, rail and air transportation routes crossing the dominion. Its location

Courtesy Manitoba Government Department of Industry and Commerce

WINNIPEG CITY HALL

in the narrow area between Lake Winnipeg and the international border results in the convergence of rail and road routes through the Winnipeg district. As a consequence, Winnipeg is one of Canada's great railway centres. Similarly, the area is an important air centre being at major aerial cross roads of the North American continent. The Winnipeg district owes its dominant position in the West to the excellent transportation facilities with which it is endowed. From Winnipeg there radiates a network of 11 provincial main highways leading to all sections of the province and connecting with major routes of adjoining provinces and states. Six of these roads are concrete or asphalt and five are gravelled highways. These roads carry all-year-round traffic or public passenger and freight transit companies.

BUS SERVICE—

The Union Bus Terminal, located in the downtown shopping district of Winnipeg, provides centralized terminal facilities (i.e. loading platforms, rest-rooms, baggage service, restaurant, telegraph, and telephone service), for passengers on the 11 bus lines operating in and out of the Metropolitan Area. From the Union Terminal there is an average of 90 scheduled trips every 24 hours. Main line runs include 3 trips daily south to United States points (i.e. Minneapolis); 9 trips daily west to Vancouver intermediate points; and 3 weekly to Red Lake mining district in Ontario. Express for rural areas is carried on most runs.

MOTOR TRUCK—

Motor carrier services in the Metropolitan area facilitate speedy haulage of freight to and from all parts of the province. There are now 35 firms operating under Interprovincial Licenses, some 54 trucks of which are car transports.

Daily service to most towns within the province is provided except in the case of the most northerly districts where the service is triweekly. Over and above the numerous transfer and delivery units working in Greater Winnipeg there are 411 licensed carriers maintaining service from country points into the Winnipeg district with over 1,060 vehicles.

AIR TRANSPORT—

The Commercial Airfield for the metropolitan area is Winnipeg International Airport, located in the suburban city of St. James, four miles west of the downtown business district. The Airport is under the control of the St. James-Winnipeg Airport Commission. Convenient bus and taxi service connect it with all sections of the Metropolitan Area. The airport covers approximately 5000 acres and has three concrete runways.

The control tower operates on a 24-hour basis. Complete aircraft engineering and maintenance service is available at the field. Customs facilities are maintained at the field for aircraft coming in from the United States. On an average day there are a total of 150 flights in and out of the airport, 28 of which are scheduled arrivals and departures. In 1958, over 300,000 air passengers travelled from the Field. The following schedule airlines operate from it:

Trans-Canada Air Lines—transcontinental flights carrying mail, passengers, and express. The Winnipeg Metropolitan Area is Canadian Operational Headquarters for T.C.A.

TransAir Limited — connecting Winnipeg with Manitoba points carries mail, passengers and freight. Headquarters is situated here.

Northwest Airlines, Inc—connecting Winnipeg with United States centres, via. Minneapolis. Mail, passengers and express. Canadian headquarters is located in Winnipeg.

Charter air service, using float planes, is available from Trans Air Ltd., which has its head office in the City of Winnipeg. Charter land plane service is to be had from T.C.A., C.P.A. and Graffo Flying Service.

WATER TRANSPORT—

The Red River, flowing from south to north, is navigable by commercial river and lake boats from Winnipeg north to Lake Winnipeg. This route is used to haul lumber and fish from the northern lake regions and to supply communities and trading posts on Lake Winnipeg. The navigation season lasts from the beginning of June until the end of October.

RAILROAD FACILITIES—

As the railroad centre of Western Canada, the Metropolitan Area is well supplied by rail service. The trains of seven companies operate in and out of the region, viz., Canadian National Railways, Canadian Pacific Railway, Greater Winnipeg Water District Railway, Great Northern Railway, Northern Pacific Railway, Soo Line Railroad, and the Midland Railway. In order to expediate passage of freight and passengers in the United States, the following American companies maintain ticket and/or freight offices in Winnipeg: Burlington Lines, Chicago Great Western Railway Co., Chicago, Milwaukee, St. Paul and Pacific Railway Co., Chicago and Northwestern Railway System, Chicago Rock Island and Pacific Railway. The Western Divisional headquarters of the Canadian Pacific and the Canadian National Railways are located in Winnipeg. Both of these large transcontinental lines operate extensive roundhouse and repair shops in the area. They maintain large freight marshalling yards. The Canadian National and Canadian Pacific Railway yards have a combined area of 1,900 acres. About 14,500 cars can be accommodated on the 537 miles of track. An average of 135 passenger and freight trains arrive and depart in a day from the metropolitan area. This is equivalent to an average of 7,000 cars that are handled every 24 hours. The record number of cars handled in one day is:—C.N.R., 5,370, and C.P.R., over 4,600.

INTERNAL TRANSIT SYSTEM—

The Greater Winnipeg Transit Commission operates a modern transit system with a fleet of over 400 vehicles made up of 162 trolley buses and 247 motor buses. Modernization has converted all street car routes to rubber tired vehicles. To handle power requirements of the new motive equipment, three power substations have been constructed. In order to expediate greater efficiency throughout the transit service, the company has installed a short wave radio system with two transmitting stations, and 19 two-way mobile stations supervising all operating motive units.

TAXICAB AND U-DRIVE SERVICE—

In 1958 there were 400 licensed taxicab operators in Winnipeg. These individuals and companies maintained a fleet of 400 vehicles. Over 90% are equipped with two-way radio communication systems to provide a more efficient service.

There are 8 U-Drive companies in the metropolitan area. They operate a fleet of approximately 226 vehicles.

WAREHOUSING AND STORAGE—

The Winnipeg area, as the largest distributing and warehousing centre in Western Canada, has ample facilities for storage and forwarding of dry merchandise, cold storage and household effects. Six storage firms handle dry merchandise with charges based either on space or on the unit involved and the type of commodity. Cold storage facilities with freezing and/or holding service are available from four firms. Cold storage charges are based mainly on weight and storage time. Fourteen firms provide storage service for household effects. Five forwarding agents operate in the Metropolitan area, offering pool car service in most cases. Forwarding charges are on a flat rate basis depending on the article and size of shipment.

NATURAL RESOURCES AND RAW MATERIALS

The rich Red River Valley land of the surrounding area is a clay loam with an alluvial silt top soil. It produces such major grain crops as wheat, oats, barley, and flax. There is also a considerable market gardening industry, which supplies the large urban domestic market and provides vegetables for the canning and food industry. The large dairy herds of the nearby farming districts form a major source of the Metropolitan fluid milk supply for domestic consumption and for ice cream manufacturing.

The varied industrial and processing establishments of the area draw on raw materials from every part of the Province of Manitoba, as well as beyond its borders. Basic materials close at hand include, sand, gravel, clay, lime, gypsum, and the famous Tyndall limestone for the building and construction industry. Bentonite clay, an important bleaching and clarifying agent in oil refining and a filtering agent in the packinghouse industry, is produced in southern Manitoba and refined in Winnipeg. The metropolitan fur garment industry fabricates fur coats and jackets from skins which are produced, dressed and dyed within the province.

Secondary resources from several basic Manitoba industries are utilized by many allied secondary industries. For instance, breweries in the Metropolitan area depend on the local malting industry for malt produced from Manitoba grown malt barley. Manufacturers of barley products and confections use the product of a nearby sugar refinery. Stock feed processors utilize the valuable meal by-product from vegetable oil processing while the vegetable oil itself constitutes a main ingredient in such local products as salad oil and margarine. From Manitoba's vast pulp forests come the materials for manufacturing the paper used in the printing, publishing, and paper box industries in the Winnipeg area.

OLD FORT GARRY GATE—A Historical Landmark

CLIMATE

The climate is of the inland continental variety with wide seasonal variations. Summers are warm with cool nights. The winter is fairly cold with a dryness which makes the climate invigorating.

Years on Record	Average Annual Precipitation
66	21.19" with 9.62" in growing season

Jan.	July	Jan.	July	Jan.	July	115 days using
-13	55	7	79	-3	62	33° frost pt.

Prevailing winds, winter and summer, North-West.

UTILITIES

POWER—

A factor of major importance to modern industry is the supply and cost of power. In this respect the Metropolitan Area of Winnipeg is advantageously situated. Hydro-electric power is supplied to the area by two organizations: The Manitoba Power Commission, a Provincial Government corporation, and The City Hydro, a City of Winnipeg utility. The power supplied by these utilities is generated on the Winnipeg River within a hundred miles of Winnipeg and a new Thermal Plant is projected for the city to take care of unusual local peak requirements. Power shortages are unknown as development of power production has been kept well in advance of industrial and commercial requirements. The cost of hydro-electric power for industrial and commercial use in the Metropolitan area is among the lowest in Canada. Large consumers may receive a special discount subject to negotiations. The following current is available for commercial and industrial services:

Alternating current, single phase, 60 cycle, approx. 120/240 volts.
Alternating current, three phase, 60 cycle, approx. 230 to 575 volts or higher.

The City of Winnipeg Hydro-Electric System distributes power in Winnipeg proper, while the Manitoba Power Commission distributes power in the other municipal corporations comprising the Metropolitan area.

WATER—

The greater part of the Metropolitan area is incorporated into the Greater Winnipeg Water District drawing its supply from Shoal Lake, an arm of Lake of the Woods roughly 100 miles east of Winnipeg. The sections of the Metropolitan area included in the Water District are:

City of Winnipeg
City of St. Boniface (partial)
City of St. James (partial)
City of East Kildonan (partial)
Town of Tuxedo (partial)
Fort Garry (partial)
Town of Transcona
St. Vital (partial)
West Kildonan (partial)

The District also supplies water to Charleswood, Brooklands, North Kildonan, Rosser, Old Kildonan, C.P.R. North Transcona, St. Charles Country Club.

The source of supply provides limitless water without fear of drought conditions. A concrete aqueduct from the source to a point eight miles east of St. Boniface has a daily capacity of 85 million gallons. Actual delivery capacity to the Winnipeg area is 42 million gallons a day. Average consumption in the Water District approximates 31 million gallons daily. From an industrial standpoint the water supply is considered ideal, there being few industrial processes for which further treatment of the water would be necessary.

SEWAGE—

A central sewage system and sewage treatment plant serves Winnipeg, St. Boniface, St. James, St. Vital, East Kildonan, West Kildonan, North Kildonan and Transcona. Raw sewage from these areas flows to the central treating plant and is rendered inoffensive before discharge into the Red River.

FUEL

The industrial fuels used in the Winnipeg area are coal, petroleum and natural gas. All are imported from outside the province.

COAL—

Roughly 50% of the coal used in Manitoba is Lignite, from the nearby coalfields of Southern Saskatchewan. The remainder is bituminous from Alberta and some anthracite from the United States. The following indicates the approximate calorific value of certain common types in industrial use.

	B.T.U. value
Lignite	6500 - 7500
Greenhill Stoker (Bituminous)	12,000
Elkhorn Stoker (Bituminous)	14,000

CENTRAL HEAT—

The downtown business district of the City of Winnipeg is serviced with central steam heat, supplied by a city-owned utility. In Addition, residential areas in the southend of the city are similarly supplied by a private corporation.

FINANCIAL INSTITUTIONS

As the financial centre of Western Canada, the Metropolitan area has many facilities for the organization and distribution of credit, the majority of which are located in the city of Winnipeg.

BANKS—

Canadian chartered banks, which are subject to strict government regulations and supervision, operate on the branch banking system. These factors minimize banking failures, making the Canadian system one of the most stable in the world.

Seven of Canada's chartered banks operate a total of 102 branches in the Metropolitan area. These branches are strategically located to handle the needs of the public, serving not only the highly developed commercial areas but also the outlying residential districts in their widespread and varied demands.

The steady industrial growth of Winnipeg has meant a constant increase in potential commercial demand for banking loans. Small and personal loans receive the same particular attention of Branch managers as the larger credits that come before Superintendents and Supervisors of the various banks in Winnipeg

In Winnipeg, one large banking operation that recurs annually is the supplying of credits and cash to move the western grain crop to market. Such requirements can, in some seasons, reach the hundred million mark.

The banking function, involving the purchase of documentary domestic and foreign bills and the sale of exchange payable in any recognized free trading center in the world is increasing daily. This reflects the importance of grain business and the expansion of grain business and the expansion of other commerce to national and international markets.

The Bank of Canada, the Canadian central bank, maintains a central agency in the City of Winnipeg. The Bank is government owned and controlled, functioning largely as a regulatory body.

The Industrial Development Bank, a subsidiary of the Bank of Canada, has a regional office in Winnipeg. The function of this organization is to provide financial assistance to smaller industrial enterprises which have reasonable prospects of success. The Industrial Development Bank supplements the activities of other lenders, providing capital assistance.

INVESTMENT AND STOCK BROKERS—

Thirty-one investment dealers and stock brokers provide Metropolitan Winnipeg with a complete investment service, buying and selling bonds and debentures, underwriting new security issues and providing investment information. There are 25 members and 11 registered non-members of the Winnipeg Stock Exchange. Most firms have representation on all the larger stock Exchanges of North America.

TRUST, LOAN MORTGAGE AND FINANCE COMPANIES—

About 70 organizations of this nature are located in the Metropolitan area, of which 13 Trust and Loan companies have their head office in the City of Winnipeg. These firms provide a variety of financial assistance to business men and to the general public. In addition to acting as trustees and agents for individuals and corporations, most of the trust and loan firms provide a savings branch service and a safety deposit department.

INSURANCE—

The insurance service is well developed and some 333 companies are represented, providing service in all fields of insurance. The City of Winnipeg is the head office of four life insurance companies, Sovereign, Monarch, Canadian Premier, and Great-West Life—one of the largest in Canada. There are 16 companies engaged in other forms of insurance business, also with their head offices in Winnipeg.

STOCK EXCHANGE—

The facilities of the Winnipeg Stock Exchange are used mainly in trading in the stocks and securities of local companies.

Courtesy Manitoba Government Department of Industry and Commerce

Winnipeg from the Junction of the Red and Assiniboine Rivers.

EDUCATION

A major requisite for progressive industrial and commercial concerns is the existence of sound academic and properly equipped technical training establishments. The public schools, colleges, and technical establishments in Metropolitan Winnipeg are noted for the maintenance of high academic standards. Excellent instruction is given in all public schools up to and including senior matriculation.

Winnipeg has an expanding school system which is witnessing changes in physical growth and in curriculum content. There has been a general broadening of the educational program, and there are now four courses available in the high schools. All high school courses are built around a core of academic subjects—English, Mathematics, Science, and Social Studies. Four courses—academic, commercial, home economics, and industrial arts—are built around these basic subjects. The academic course is the usual matriculation course and is required for university entrance. In each of the other three courses, the students become acquainted with the basic tools and techniques, and are made aware of the opportunities which exist in the various fields or crafts under study. In the senior year 80% of the school time is assigned to the main body of studies, and 20% to the optional course

A different course of study is offered at the Technical-Vocational High School in Winnipeg. This is a new school and offers industrial and home economics courses. This school gives 50% of the time to the industrial courses and the remaining 50% to academic subjects. This increased time allowed to the industrial courses, gives the student the equivalent of several months, and perhaps a year, of apprenticeship training, and is taken into account when he becomes apprenticed to a trade. In 1955-56 this school had an enrolment of 850 and offered courses in the following fields: Auto and Power, Graphic Arts, Industrial Design, Metal, Woodworking and Building, Electrical, Household and Personal Service, Industrial Food Service, Needle Trades.

The content of these courses is under revision, and both management and labor are co-operating with the Departments of Labor and Education in providing courses to meet the needs of the students and of industry.

The Manitoba Technical Institute, a provincial trades school located in Winnipeg, is the fourth school of its kind to be established in Canada. The Institute provides young people with an opportunity for vocational training and at the same time is a very substantial source of supply for technicians for industry and business. Facilities are available for approximately 50 courses with an enrollment of 800 students.

Courses are given on an intensive, practical basis and trades testing for all designated trades is carried out. The courses vary in length from six months to two years. The staff is composed of journeymen of considerable experience in their particular trades. Through the co-operation of the Apprenticeship Board, a close contact is maintained with the various trades through advisory committees which review the courses of instruction from time to time and advise the principal of the type of training that they believe the graduates of the Institute should have. In this way the courses are kept intensely practical and in close harmony with the needs of the various trades. Vocational courses in high schools and in the Manitoba Technical Institute receive financial support which is shared by the Dominion and Provincial Governments under the terms of the Vocational Training Co-ordination Act of 1942.

The student entering the University of Manitoba, which is situated in Fort Garry, has the choice of a full program in almost all academic and professional fields. Degrees may be obtained in Arts: Science: Commerce; Civil, Electrical and Mechanical Engineering; Medicine; Architecture and Interior Design; Agriculture; Law; Home Economics; Education; Social Work and Theology. Affiliated colleges are located in Winnipeg and in the city of St. Boniface. Teacher training for those with matriculation qualifications is provided by the Manitoba Teachers College situated in the Town of Tuxedo.

Training and education are not confined to day classes and facilities for adult education in evening classes and institutes are many and varied. As part of the public extension system, the University of Manitoba conducts the Evening Institute, consisting of classes of an academic and practical nature, conducted by competent instructors. The Winnipeg School District also provides evening classes for adults in academic, technical and commercial subjects. For this purpose the shop and classroom facilities of nine schools are used and the courses are made available to residents of surrounding municipalities. The Manitoba Technical Institute also maintains classes of evening instruction. During the winter of 1956, 36 courses were offered covering mainly trade improvement. Any pertinent course of instruction requested by a group will be given at the Institute. The Manitoba Labour Institute offers expert instruction in Economics, Law, Public Speaking and English. The Institute is sponsored by the Provincial Department of Education in conjunction with Trades Union Organizations.

Over and above the public schools and colleges there are many private organizations providing instruction in academic, trades, commercial, recreational and cultural subjects. Thirty-one schools are registered under the Trade-Schools Regulation Act.

The building program for Winnipeg City Schools has centered around the problems of elementary accommodation in areas where extensive residential construction has been in progress. Winnipeg School District number 1 has a teaching staff of 1,656 and an enrolment of 44,127, with over 13,000 additional students registered at suburban schools.

LABOR

Employment in the Metropolitan area of Winnipeg was not subject to wartime and post-war fluctuations, and Winnipeg was the major industrial city in Canada showing an appreciable gain (15.9% at July 1, 1948) in employment over the same date at the wartime peak year of 1943. The employment index in November, 1958 was 110.7 in Winnipeg based on the 1949 figure as 100.

SUPPLY

The Census of 1951 showed that the employed force in the Metropolitan Winnipeg area for all occupations numbered 140,740, composed of 96,372 male workers and 44,368 female workers. The employed forces of November, 1958, was estimated at 248,000 male and female. The expansion of manufacturing and commercial establishments, along with the diversity of occupations, has tended to attract large numbers of younger workers from the rural areas and smaller centres. The seasonal aspect of certain industries, i.e. packing, construction, causes a seasonal fluctuation in the supply of certain classes of workers which reaches a maximum peak in the winter months.

In order to channel workers into vacancies, the National Employment Service, a Federal Department, maintains two offices in Winnipeg and one in St. Boniface. In addition there is an executive and professional branch in the City of Winnipeg. The Regional Office of the Prairie Region is also located in Winnipeg. National Employment Service officers carry out the registration of high school students and University students during the winter months for employment in the summer and upon graduation.

TRAINING—

As indicated in the Section on Education, present training facilities and the projected expansion of these facilities are designed to ensure a steady flow of well trained technicians and artisans into the working stream in order that the requirements of expanding industry and of new establishments are satisfied. In this respect both industry and labor are co-operating with the training units to an unprecedented degree. In some cases interested industrialists have set up scholarship funds to assist worthy trainees. This is especially true of the garment industry.

LABOR-MANAGEMENT RELATIONS—

The incidence of strikes for the Metropolitan area is among the lowest for cities in Canada. Excellent employee-management relations are in evidence, not only in the Winnipeg region, but also throughout the rest of the Province.

In 1957 latest year for which statistics are available, no time was lost in Manitoba by strikes and lockouts.

BUILDINGS AND SITES AVAILABLE

Recent indications are that industrial and commercial space for lease and sale is becoming more available as expanding plants move into new quarters.

The City of Winnipeg has developed a large tract of land in the northwest corner of the city, on both sides of the C.P.R. line. The area is bounded on the east by Fife St. and on the south by Redwood Ave. The tract was developed by the city in response to a demand for industrial property.

Industrial sites are also available in the Elmwood district of the City of Winnipeg. This tract lies south of Nairn Avenue and west of the Bird's Hill Road. The area is well serviced and fronts on a major thoroughfare.

South of the Canadian Pacific Railway Yards and west of McPhillips St. there is a large tract of land being held by the Midland Railway. It is being sold to industries which make the maximum use of international railway transportation.

East of the International Airport there is a large potential light industrial area lying to the north of Saskatchewan Ave. This is being designed as a Joint Service area under an agreement between the C.P.R. the C.N.R. and St. James. A number of industries have located in the southern section between Ellice and Saskatchewan Ave. A few sites are still available in the area between Ellice and Sargent.

Courtesy Manitoba Government Department of Industry and Commerce

St. Boniface Basilica stands on the site of the first Roman Catholic mission in the west, built in 1818. On the eastern bank of the Red River, the towering, Romanesque structure dominates the "Cathedral City."

A large tract of land lying south of the proposed new reservoir in South Winnipeg has been subdivided for industry in Fort Garry. Several large companies have acquired property and have built or plan to build substantial plants.

A huge area has been zoned for industrial use by the City of St. Boniface. Many large plants are situated in the tract along Archibald St. and Marion St. The city has developed an area between Dawson and Panet Roads that is one of the most desirable industrial districts in the Metropolitan area.

An area in Brooklands, immediately north of Notre Dame Ave., is being developed for industrial use. A trunk sewer is being built in the village and can be extended to service this tract when necessary.

A large tract of choice property has been set aside for industrial use by the city of East Kildonan. Several manufacturing firms have already located there. C.P.R. spur trackage, sewer and water facilities, paved roads and railway sidings are available.

Transcona has an attractive site west of the town. This area has the advantage of being strategically located on a good highway near Winnipeg and benefits from Transcona's low rate of taxation. One large company has completed a large development in this area which is assuming an ever greater significance as an industrial area of the future.

The Municipality of North Kildonan has zoned two areas for industrial development:

In the area north-east of the junction of McLeod Avenue and Gateway Road. Water and sanitary sewer facilities are nearby, spur trackage is readily available and access to Henderson Highway and Highway 59 is direct.

In a tract of land west of King Street in the south-east corner of the municipality. This industrial area and the Transcona industrial site, which lies alongside, are being jointly developed by North Kildonan and Transcona. Sewer, water and trackage are available.

Industrial and commercial property is also obtainable in the Rural Municipality of Assiniboia, in the vicinity of the new Assiniboia Downs race tracks.

St. Vital has designated a huge area in the south of the municipality for industrial use. However, it will be some time before it can be serviced with sewer and water. The tract can be serviced by the C.P.R. Duluth-Minneapolis line and the Manitoba Government has re-directed Highway No. 59 south to Niakwa Road which is the new Trans-Canada Highway. The Winnipeg Pipeline passes to the east of the property.

RECREATION AND CULTURAL FACILITIES

For the dweller in the Metropolitan area, whether inclined to strenuous athletics or to milder intellectual pursuits, there is ample recreational scope. The facilities range from the Red River with its aquatic, rowing and canoe clubs to the splendid Civic Auditorium in the heart of Winnipeg, which houses the provincial museum, an art gallery and two concert halls. The larger of these halls, seating over four thousand people, is the scene of the annual Musical Festival, which ranks among the largest in the world. Here also perform many of the world's great artists in the Celebrity Concert Series, and here one may listen to Winnipeg's own Symphony Orchestra. The Winnipeg municipal theatre, the Playhouse, has many forms of entertainment, including vaudeville, musical shows and dramatic productions of amateur and professional companies, and performances of the Royal Winnipeg Ballet, one of Canada's leading companies. In the Metropolitan area there are over 40 theatres, including 5 "drive-in" open-air theatres.

All manner of sport facilities, spectator and participant, exist in the district. Ice hockey is the outstanding winter sport, and Greater Winnipeg has several leagues, ranging from playground to semi-professional. From the area come many of North America's outstanding hockey professionals. Curling, another favorite winter sport, has many adherents grouped into 17 curling rinks operating in the area. The Annual Winnipeg Bonspiel is considered the world's largest.

In the field of organized family recreation, the Metropolitan area is leading the rest of Canada. There are 70 local community clubs in existence, with several in the process of formation. These clubs have supervised recreation and social activities and many of them have a program of handicrafts and hobby shops for adults and juveniles. Other local organizations which have supplementary or complementary programs to the community clubs and YMCA, YMHA, YWCA, Winnipeg Winter Club, Home and School Associations, and many church groups.

The Winnipeg district has over 1,290 acres of land distributed in approximately 117 public Parks, squares and athletic fields, and 18 undeveloped sites. These range in area from a fraction of an acre to the large 296-acre Assiniboine Park, with its lovely flower gardens, lawn tennis courts, cricket pitches, Zoo, Conservatory, Palm House. and refreshment pavilion.

An extensive list of other facilities would include.

16 golf courses
21 lawn bowling associations
23 shooting clubs
8 ski clubs
4 riding academies
21 indoor bowling establishments
8 badminton clubs
1 roller skating arena
2 indoor skating arenas
1 race track
1 stock car racing track
4 rifle and gun clubs
1 squash racquets club

In addition Greater Winnipeg is well situated with regard to summer resorts on lake and stream, with excellent hunting and fishing.

TOURIST INDUSTRY

The results of the Provincial Bureau of Travel and Publicity of the Department of Industry & Commerce, 1956 tourist survey, indicate that over 90% of the American tourists entering Manitoba pass through Winnipeg. Statistics for 1957 also indicate that approximately 1,125,000 U.S. tourists visited the Metropolitan area during their Manitoba vacation.

Accommodation for the travelling public is provided by 76 hotels with approximately 3,300 rooms with a bed capacity of 5,853. The larger hotels have excellent facilities for convention purposes. Approximately 32 motels are in the area.

SOCIAL AMENITIES

HOSPITALS—

Hospitalization facilities include 7 general hospitals with a total bed capacity of 2,383. The total staff is over 4,122. A provincial sanatorium is located in St. Vital and a large regional veterans hospital in the city of St. James. The diagnostic facilities in Greater Winnipeg are on a par with the larger North American Centers.

In addition there are 3 contagious and chronic hospitals with 505 beds and one Sanitorium. These hospitals have a staff of approximately 572.

LIBRARIES—

The Carnegie Foundations libraries in the City of Winnipeg are available to residents of the Metropolitan area. The libraries consists of one main library and three branch libraries with special boys and girls' departments in four Winnipeg Schools and two bookmobiles.

The libraries contain 204,462 volumes which are at the service of any resident of the city. The reading rooms, which are open to all comers are stocked with a good selection of daily and weekly newspapers and with all the leading magazines published in the English language. The main library contains a film and a phonograph record departments which has 936 films (owned by library) and some 6 230 records which are loaned on a rental basis. Other libraries in the area include the Provincial Library in the Legislative Buildings, a free reference Directory library, libraries of the University of Manitoba and affiliated colleges, and eight rental libraries, Jewish Public Library, St. Boniface Public Library (branch in Norwood), the St. James Public Library and the St. Vital Public Library.

RELIGIOUS ORGANIZATIONS—

Nearly all major religious denominations are represented in the 324 churches and missions in the Metropolitan area. The varied church organizations play an important part in the social life of the community and reflect the cosmopoltian nature of the population. In the City of St. Boniface is located the twin-spired Cathedral, now a Basilica, made famous by the Poet Whittier.

SERVICE ORGANIZATIONS—

Service leagues, clubs, fraternal and sorority organizations are all very active in performing service to the community in many phases of aotivity. Approximately 80 such organizations exist in the area, each organization having several branches.

HOUSING—

Following the war the Winnipeg area, in common with other large urban areas of Canada, experienced an acute housing shortage. Since 1951 increased building activity has produced a total of 17,387 dwelling units, including wartime housing, integration schemes, apartments and other housing. The present ratio is one house to every 3.6 persons.

Courtesy Manitoba Government Department of Industry and Commerce

Ross House, the first post office in Winnipeg, has been preserved as an historical museum of Winnipeg's early days.

POPULATION AND MARKETS

In total population Metropolitan Winnipeg is the largest of the urban areas of the three Prairie Provinces, and it is the fourth largest urban area in Canada. The 1956 census of population showed it as 409,687.

The data on population as outlined above indicates the immediate retail urban market.

Three-quarters of retail sales are accounted for by stores in the General Merchandise, Food and Beverage and Automotive Groups among the metropolitan municipalities. Retail sales in the General Merchandise Groups are a larger proportion of total sales in the metropolitan area than they are in the Province. This is primarily due to sales in the Automotive Group outside the City.

The importance of Winnipeg as a retail centre is emphasized by the fact that retail sales are 65% of Manitoba's, although people living in the metropolitan area receive about 48% of the province's personal income. The concentrated market for consumer goods is further emphasized when it is considered that stores within 100 and 150 miles of Winnipeg had sales in excess of 437 and 501 million dollars respectively at the time of the last Census of Distribution. The fact that Greater Winnipeg's retail sales are larger than those for either of the provinces of Newfoundland, Prince Edward Island, or New Brunswick and are almost equal to those of Nova Scotia, is a further indication of the extent of the market. In 1957 retail outlets recorded estimated sales of $421,981,910.

Statistics aren't available for the wholesale trade in the whole metropolitan area, however, data on the cities of Winnipeg and St. Boniface (which represent more than 95% of all wholesale trade in the metropolitan area) show that the total volume of the 1,122 establishments was $1,828,545,800 in 1951. This was 40% of the wholesale sales for all three prairie provinces and was 89.7% of the volume of wholesale trade for Manitoba.

Winnipeg is surpassed by Vancouver only in the West and Montreal and Toronto in the East as retail sales markets.

MANUFACTURING

The manufacturing industries in Metropolitan Winnipeg are one of the most important factors in its economy, being the largest individual source of employment. At the end of 1957 out of a total employment of 90,000, manufacturing gave work to 34,000 or 37% The next largest employment group is the wholesale and retail trades with 25,000 or 28%.

The estimated value of manufacturing production in Greater Winnipeg in 1958 was $566,610,000 with payrolls of $118,660,000.

Much of the Greater Winnipeg's success as an industrial centre lies in the diversification of its industry which is unsurpassed by any comparable city in Canada. One of its chief assets is the excellent relationship which exists between management and labor, an enviable situation which has existed for 25 years.

The prospects for further industrial expansion are bright. Here, are all the modern facilities needed by a large manufacturing centre: good transportation, excellent water supply, ample electric power at reasonable rates, and a good supply of skilled labor.

The central geographical position in a rich agricultural area bounded by a northern section abundant in natural resources, particularly minerals, makes Greater Winnipeg a city with an enviable future.

The fast-growing oil fields in southwestern Manitoba are rapidly increasing the importance of our oil industry. Total number of wells actually producing at the end of 1957 was 734, and the total production in the year was 6,089,743 barrels. The daily capacity of Manitoba refineries is now 34,200 barrels, and our well production is more than half that at present.

An indication of the activity in our mining industry for which Winnipeg is the supply headquarters, is the current development of International Nickel Co's, 175 million dollar mining project in the Mystery-Moak Lake area of Northern Manitoba. Other mines are being opened up in South East Manitoba as well as in The North.

COMMUNICATIONS

In all media of communications, Greater Winnipeg is served well. The **telephone system** in the province is provincially owned and operated. In the Greater Winnipeg district there were over 161,000 telephones as of December 31, 1957. Five **radio stations** operate in the Metropolitan area, four of them in the City of Winnipeg and one French language station in the City of St. Boniface.

Call Letters	Wattage	Frequency
CKSB (French language) St. Boniface	1,000	1250 kilocycles
CBW (C.B.C. station)	50,000	990 kilocycles
CBWT Television Station		Channel 3
CJOB (Standard and FM broadcast)	5,000	680 kilocycles Standard 103.1 megacycles F.M.
CKRC	5,000	630 kilocycles
CKY	5,000	580 kilocycles

TELEGRAPH SERVICE—

Telegraph service is supplied by the Canadian National Telegraphs, a subsidiary of the Canadian National Railways, and the Canadian Pacific Telegraphs, a subsidiary of the Canadian Pacific Railway.

For **Postal Service** the Winnipeg district is within 24 hours postal time of most North American centres and about 48 hours from the United Kingdom.

PUBLICATIONS—

It is generally recognized that the Winnipeg area, with its heterogeneous population, is the Canadian centre for foreign language and the racial group publications. In addition there is a wide variety of weeklies, farm papers, magazines and trade organs issued in conjunction with many phases of activity in the Province. Many of these publications have wide circulation in the Prairie Provinces as well as in other parts of the Dominion.

FURTHER INQUIRIES

The foregoing data show that the cities and municipalities forming the Metropolitan area of Winnipeg have much to offer the industrialist and businessman who is considering the Western Canadian Market. In a publication of this nature, it is not feasible to give the wealth of detail and specialized data required by many industrial organizations. Interested firms may obtain such information from the **Department of Industry and Commerce, Legislative Bldg., Winnipeg,** or Greater Winnipeg Industrial Development Board.

WINNIPEG CIVIC ADMINISTRATION

1959

MAYOR—

Stephen Juba

WINNIPEG PUBLIC SCHOOL BOARD

1959

The School Board Offices are located at the corner of William Ave. and Ellen St.

Chairman—Miss Catherine Stewart
Vice-Chairman—A. Ross Little

Courtesy Manitoba Government Department of Industry and Commerce

An aerial view of the C.P.R. Yards. Winnipeg, because of its strategic geographic position, is the focal point for all rail, road and air traffic crossing Canada. As a consequence, Winnipeg is the major railroad centre in Western Canada and one of the largest railway centres of the nation. The largest privately owned yards in the world are located here.

Winnipeg Public School Board—Cont.

Board of Trustees

HENDERSON'S
Winnipeg
Streets and Avenues
1959

In the following list the avenues and streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. The profession or business of individuals or firms is given only at their respective places of business; to find occupations of others refer to Alphabetical List of Names.

Where the odd and even numbers on an Avenue or Street are separated, the north side (odd numbers) on Avenues will appear first and the east side (odd numbers) will appear first on Streets.

The symbol * following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(This section includes some listings reading "Occupied" or "Vacant". In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First two personal calls were made by an enumerator; next, a post card was mailed and the telephone used when possible.)

METHOD OF NUMBERING

Avenues generally run East and West and are numbered under 200 East of Main Street and over 200 West of Main. South of the Assiniboine River, Osborne Street is the base.

Streets generally run North and South and are numbered northwards from Notre Dame and both northwards and southwards from the Assiniboine River.

Odd Numbers are generally on the north side of Avenues and east side of Streets.

Even Numbers are generally on the south side of Avenues and west side of Streets.

Postal Zone Numbers, when allocated, are shown at the start of each avenue or street. When an avenue or street runs into an adjacent zone the New Zone Number is indicated at the appropriate intersection.
